Title

REVERSE THE ORDER OF STRING

Description

You are given a string containing words separated by spaces. Your task is to write a function or program that reverses the order of words in the string.

Sample Input:

Hello World

Sample Output:

World Hello

Source Code:

```
def reverse_words(s):
    # Split the string into words
    words = s.split()
    # Reverse the list of words
    reversed_words = words[::-1]
    # Join the reversed list into a single string
    return ' '.join(reversed_words)

# Example Usage
input_string = input()  # Read input from the user
result = reverse_words(input_string)
print(result)
```
